Abstract

This is a transcription of a special *Autism One Radio* program aired on December 19, 2007 concerning lead-containing blankets offered for sale for use with autistic children. If you or anyone you know has purchased or been given what is supposed to be a weighted therapy blanket or vest, this is information you need to hear. Terri Arranga, the host, interviews parent, Lois Smith; Kevin McNeill, Lead-Based Paint Inspector & Risk Assessor, St. Clair County Health Department, Michigan; Sharon Hudson, Coordinator, Childhood Lead Poisoning Prevention Program, Michigan Department of Community Health and Richard Leiker, Section Manager for Environmental Toxicology in the Public Health Division in Portland, Oregon.
