Dear Justin:

On behalf of the American Academy of Pediatrics, I want to express our deep appreciation for Wyeth Laboratories' extremely generous donation of \$150,000 to produce and distribute the Academy's Management of Pediatric Practice manual. We see this publication as a vital component in the Academy's continuing drive to maintain and enhance the quality of child health care.

We are very pleased that Wyeth is a partner in the production of a resource book that promises to have an influence on pediatric practice for years to come. Thank you very much for helping us to make it available. Many thanks to you too, Justin, for so generously contributing your time and talents to this project.

Sincerely,

M. Harry Jennison, M.D.
